## SUMMARY

I am Md Sadman Hasan, a dedicated individual with a passion for technology and a drive to make a positive impact on the world. Currently pursuing a degree in Computer Science and Engineering, I thrive on challenges and am constantly seeking opportunities to expand my knowledge in this ever-evolving field.

Throughout my academic journey, I have honed my skills in programming languages such as Python, Java, and C++, and have a strong foundation in algorithms and data structures. I find great satisfaction in solving complex problems and crafting efficient solutions.

I am excited to continue my journey in the world of technology, seeking opportunities to innovate, learn, and contribute to meaningful projects.

## EXPERIENCE

February 2023 - June 2023

**Social Work Student** | Chittagong, Bangladesh

- As a student social worker, I engaged in practical experiences within community organizations, schools, or healthcare settings. I applied academic knowledge to real-world situations, assisted individuals or groups facing challenges, and contributed to social welfare initiatives.
- This hands-on work helped me develop skills, empathy, and a sense of social responsibility, preparing me to address complex community issues in the future.

## EDUCATION

**Bachelor of Science in CSE** | International Islamic University

Hatey Khari School And College, CDA, Agrabad, Chittagong

Education in Computer Science and Engineering (CSE) focuses on the study of algorithms, data structures, programming languages, software development, and computer systems.

Students in CSE programs typically learn programming languages such as Python, Java, or C++, and gain proficiency in problem-solving and algorithm design.
